

Luxxor Video Camera System

Vision Imaging Sytem

The Luxxor video camera system can be added to any Hawkeye borescope to enhance its operation and make it suitable for a broader range of applications. It enables the operator to free up their eyes and body, helping to eliminate uncomfortable viewing positions. The system incorporates a 1/2 inch CCD camera providing a resolution of 768 x 494 pixels. The NF Lens has a C mount adaptor and comes with a 1/4 inch – 20 tripod mount. The unit can be used with a high quality LCD monitor which is available as an option or can be connected to a PC or laptop via USB or PCI interface.

Advantages

- Simplifies routine, repetitive inspection procedures
- Increases productivity
- Clear, magnified images can be viewed by two or more people simultaneously
- Video and still images can be captured and archived

Specification

Item Number	Description
LXX-VBSM	Luxxor video camera system includes:
XC-555	Sony video camera
VC-35	Luxxor video coupler lens
LXX24	Luxxor 24 light source
