

Setting ring gauges

- Hardened tool steel
- Delivered in individual packages

1132 ... : Setting ring gauges for measuring instruments DIN 2250-C
 1133 ... : Setting ring gauges for reamers on request
 1134 ... : GO and NO-GO ring gauges; DIN 2250-G DIN 2254 on request
 1135 ... : Setting ring gauges for pneumatic measuring instruments; DIN 2250-B on request

- 1 Intermediate dimensions and numerical tolerances have an extra cost.
- 1 Larger nominal sizes and hard chrome-plated setting ring gauges on request.

No. 1132 5...

- Hardened measuring faces
- > 1.8 mm drop forged
- ISO tolerance A-ZC, quality 7–13
- Delivered in individual packages

1140 1.. :
 DIN 2230, Limit snap gauges with double-ended jaws

1141 1.. :
 DIN 2231, Limit snap gauges with single-ended jaws,
 GO and NO-GO sides on one side

- 1 Intermediate dimensions, numerical tolerances and quality 6 and finer have an extra cost.

- 1 Hard chrome-plated or tungsten carbide-tipped models on request.

Limit snap gauges
